Paul Lesniewicz : Bonsai: The Complete Guide to Art and Technique before purchasing it in order to gage whether or not it would be worth my time, and all praised Bonsai: The Complete Guide to Art and Technique:

5 of 5 people found the following review helpful. Mostly a beginner's guideBy SongThis book give some good information on bonsai but it is lacking. It is a nice starter's guild but it is definitely not a complete guide to art and technique. There are some good information within it but for intermediate bonsai artists it is just some more basic information that is in all other starter's guides. But it is always nice to have a good rounded collection of information with any art and if you are looking for another book, it is nice to have for more information and ideas. I still enjoyed the book because you never know what you might be missing.1 of 1 people found the following review helpful. HelpfulBy LibraryRoseGot for my spouse, who is getting into bonsai. He found it helpful.0 of 0 people found the following review helpful. Five StarsBy Shaggy Bird Mangood book

An introduction to the art and technique of growing bonsai, with colour photographs, line drawings, charts and tables.
