Dan Ramsey : Building a Log Home from Scratch or Kit (Second Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Building a Log Home from Scratch or Kit (Second Edition):

0 of 0 people found the following review helpful. Five StarsBy Erthomas1977Some useful information0 of 0 people found the following review helpful. Five StarsBy Robert S Costaperfect0 of 0 people found the following review helpful. Five StarsBy James David UnderwoodVery good reading

Join the tens of thousands of new home buyers who are discovering that today's log homes are attractive, economical, energy-efficient, and comfortable alternatives to higher-priced traditional homes. Better yet, find out how you can save even more by building your own log home, either from scratch or from one of the many prefabricated kits now available.

"The best book available on log homes." -- William Sitler, Beaver Log Homes
